

# Web Application Developer Certificate

Have you build a web site?

For yourself?

For a relative?

For a client?

## What is NOT Web Development

It is NOT just graphics Design

It is NOT Software Dev.

Development Web, Games, Software, App

It is NOT Game Dev

Build a Product Using HTML/CSS, JavaScript

But it shares a lot with Game and Software dev: logic, graphics, design, collaboration, ethics, interaction with clients and stakeholders

Build user interfaces And prototypes from Wireframes and Designs: all about appearance and functionalities

It is:

It is:
